PROJECTS

Shopshiper — E-Commerce Website

- Developed a full-stack e-commerce web application with a responsive React.js frontend and Node.js backend.
- Implemented structured client-server functionality and designed the application for smooth navigation and usability.

Vibnet — Social Media Website

- Developed a responsive social media website with an interactive, user-focused interface.
- Used HTML, CSS, and JavaScript to structure pages, style the interface, and add client-side interactivity.

Personal Portfolio Website

- Designed and developed a responsive portfolio website to showcase projects, technical skills, and academic profile.
- Added JavaScript-based interactions and organized content for clear navigation and presentation.
